

## Portaloo. Often imitated. Never equalled.

### Domestic standard facilities for your clients

No one likes bad toilets. In fact, research has shown that most people want to find the same standards at work and at play as they do in their own homes. Which is why, at *Portaloo*, all our facilities offer the same high standards your clients and their customers expect from permanent amenities.

Built to last with heavy-duty steel construction, toilet and shower units from *Portaloo* provide a high-quality, welcoming and hygienic environment. All units are fitted out to the highest standard and arrive ready for use.

- **Outstanding product quality** – full flushing toilets, hot and cold running water, high quality fixtures and fittings, and self-closing taps.
- **All-steel construction** – ensuring your facilities are built to last.
- **Disabled persons and baby changing facilities.**
- **Connection to electricity supply.**
- **Consumable refill service** – maintaining toilet roll, soap and paper towel levels at all times.
- **Mains-connected** – for Health and Safety compliance.
- **Mains-free facilities** – allowing you to site high-quality facilities anywhere.
- **Complete solutions** – including access ramps and steps.

### First class service

Our range of quality products is backed up by a first class service. Unlike many competitors, *Portaloo* can offer you national coverage with our large number of Hire Centres. Our friendly, professional team of experts will provide the advice and guidance necessary to ensure the perfect solution for your requirements.

With free site surveys and quotations provided within 24 hours, we'll provide your clients with high-quality toilet and shower facilities – fast.

Plus, for your complete peace of mind, all *Portaloo* products are backed with our pledge to deliver your facilities on time and on budget. \* That's a promise.

Squalid, cramped, no locks, no lighting,  
prone to toppling over mid-use...

No one likes bad toilets. That's why we don't make them.

## Case Study

Customer: **Redman Construction**

Location: **Watford Gap Services, M1**

### Requirement

When comprehensive refurbishment work was carried out at the busy Watford Gap service station, customer toilet facilities were left out of commission. Requiring high quality toilet facilities in the interim, Redman Construction turned to *Portaloos*, who were able to provide service station customers with domestic standard toilet units.

### Solution

Chosen because of their bright, clean, hygienic environment, Redman Construction opted for 11 male, female and disabled persons' portable toilet units from the *Portaloos* Premium range.

**"Portaloos seemed the obvious choice because they offer a quality product, a flexible hire period, and a proven track record of supplying temporary sanitary accommodation."**

Steve James, Project Manager, Redman Construction.

The quality you would expect from permanent facilities, with the convenience of a short-term solution.
